Climate Change and Green Hearts

In February hundreds of thousands of people from all over the country will join the UK's biggest conversation about climate change, as together we become a voice for change that is impossible to ignore. We know that a cleaner, greener future where the things we love are protected from climate change is within reach, but we need to see action today. Green hearts will be popping up all over the country with events in schools, village halls, libraries, town centres and even football stadiums and in our parish. There's never been a more important time to show the love for a future where the life we love is safe from the impacts of climate change.

So how will you #ShowTheLove?

Live Simply

Jesus' own life offers us a model. He lived simply, not accumulating possessions, but sharing in fellowship in the gifts of creation. His teaching was woven through with images of nature, as God teaches us, through nature, about his Kingdom. Jesus' Ministry was shaped by relationships of restoration, a preferential care for the poor and for children, and by the promise of a renewed creation in the Kingdom of God.

Thank you.

VISION Please take a copy of the latest copy of the magazine of the charity Children in Distress and read about the work of this wonderful charity and about some of the children who received a shoebox.
